PROJECTS

- **Powerpaint [Website] [Source Code]**
  - Paint application that lets users collaborate on drawings in real-time.
- **Two-Factor Authentication Meteor [Website] [Source Code]**
  - Enables two-factor authentication on Meteor accounts using Twilio Authy.
- **Sticks and Stones [Website] [Source Code]**
  - An HTML5 pong game where users can choose to play with their friends or an AI.
- **Flappy Circle [Website] [Source Code]**
  - An HTML5 mobile game based on the more popular game, Flappy Bird.

EXPERIENCE

- **Freelance Full-Stack Developer – 2017 - Present**
- **Product Owner, Chartify — 2018 – Present**
  - An analytics tool that calculates metrics such as Monthly Recurring Revenue (MRR), Lifetime Customer Value, and Average Revenue per User from connecting a user's Stripe account or by calling REST API endpoints.
- **React Native iOS Developer (Contract); Hellomoon — 2017-2018**
  - Hellomoon is an iOS app that allows coffee-lovers to discover nearby coffee shops. The app allows them to look at a menu, pay, and place an order. The shop will receive funds and notify the customer when their order is ready. The app uses Firebase as its back-end and Stripe to process payments.
